

# COVID-19 CASE FILES:

Solving the Mystery of  
Prevention and Management

You are invited to participate in **COVID-19 Case Files: Solving the Mystery of Prevention and Management**, an interactive, gamified learning program designed to equip primary care practitioners and pharmacists to prevent and treat COVID-19, including post-COVID-19 condition. Through engaging case studies, participants will delve into recent data and guidance with regards to COVID-19 and discuss practical strategies to individualize the prevention and management of this disease.
